EZMAXPLANNER PILOT PROJECT

Getting started with 'drag & drop' planning and scheduling

EZMaxPlanner provides an intuitive user interface to easily manage and allocate work to your available resources.

EZMaxPlanner can be integrated easily and deliver improved maintenance outcomes through:

- Rapid deployment
- No additional hardware requirements
- No reconfiguration or duplication of business rules from IBM Maximo.

WHY RUN A PILOT?

Evaluating planning and scheduling in a controlled pilot allows you to experience EZMaxPlanner in your own environment and target key work processes to validate your choice.

On completion, all work can be seamlessly transitioned to a production environment for enterprise wide deployment.
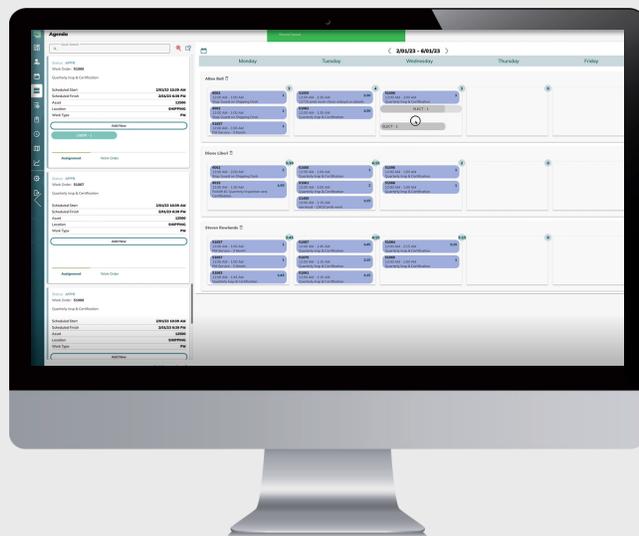

A PILOT CAN HELP YOU

- Manage risk
- Inform time estimates and task sequencing of a future implementation
- Gauge user reaction
- Develop skills in-house for deployment and support
- Identify performance measures

EZMaxPlanner's intuitive user interface makes it easy for planners to manage and allocate work to the right technician in one simple 'drag & drop' function.

> **Implementing EZMaxPlanner has been critical to the success of our Mobility program and provides a great starting point from which we can grow and evolve our capability (as users of Maximo).**
>
> **Renewable Energy Generator**
> Asia Pacific

WHAT'S INCLUDED
IN A **PILOT PROJECT**

WHAT YOU GET

For a fixed price, our qualified IBM Maximo and system integration experts will implement and configure EZMaxPlanner to work in your environment.

The scope of work can be tailored to your specific requirements and will deliver a fully functional evaluation platform with minimal impact on existing systems.

On completion of the pilot project, all work can be seamlessly transitioned to a production environment for enterprise-wide deployment.

THE PROGRAM

TERM	45 days trial period
SCOPE	• Implementation planning, advice and configuration one resource type and one facility/work zone • Installation of EZMaxPlanner evaluation licenses and support throughout the pilot • Documentation and advice to effect knowledge transfer

HOW TO GET STARTED

EZMaxPlanner Pilot Projects are delivered through Clarita Solutions - our IBM Maximo implementation specialists.

Clarita Solutions - a COSOL Company, have completed numerous pilot projects and system implementations across a range of industries globally. They combine their technical systems and integration skills with functional expertise to deliver best-of-breed solutions that integrate asset and location data to transform your asset management operations.

LEVERAGE OUR EXPERTISE

We are a global leader in digital transformation and data exploitation with more than 20 years' experience partnering with asset intensive organizations

In 2020, we acquired a leading North American provider of managed services, application support for asset intensive industries (formerly AddOns, Inc).

In 2021, Clarita Solutions joined COSOL, bringing asset management system integration expertise to the group. As certified IBM Gold Partners, Clarita are our IBM Maximo implementation specialists.

Together as COSOL, we have the technical expertise, industry knowledge and global experience to deliver best-of-breed solutions that drive quantifiable business improvements for asset intensive organizations worldwide.

THE COSOL GROUP:

- COSOL North America
- COSOL Asia Pacific
- Clarita Solutions
- Work Management Solutions
