OUR CORE SOLUTIONS

COSOL is built on one belief: in asset-intensive industries, reliability is everything.

Our capabilities are structured around three core solution areas - each designed to help asset-intensive organisations drive performance, reduce risk, and make better decisions. To explore the full list of solution modules available under each offering, including real-world examples of how we've delivered them - get in touch with our team.

1. Asset Management Services

From strategy to execution - reliable support that keeps operations moving

COSOL provides the reliable support you need to keep operations moving - from strategic planning to hands-on improvement. When performance, safety, and uptime are on the line, expert insight and dependable execution matter most.

Advise	Strategic Asset Planning	Operational Improvement & Optimisation	
Operate	Master Data	Asset Management Specialist Resources	Workforce Training & Systems Coaching

2. Digital Asset Management

Reliable data. Smarter systems. Better Decisions

COSOL delivers dependable data integrity, system optimisation, and AI-led insights - because in asset-intensive industries, you can't afford decisions based on anything less than trusted, high-quality data.

Advise	System Advisory & Assessment	Transform	Data Lifecycle Management	
Operate	Managed Systems Optimisation	Optimise	System Add-Ons	Toustone Advanced & AI Analytics

3. Asset Management as a Service (AMaaS)

Always-on asset management - fully delivered, when performance can't slip.

COSOL's unique AMaaS offering combines 25+ years of proven global expertise, proprietary software, and best-in-class technology - delivered through a dependable partnership that keeps your operations running continuously at peak performance.

Our Suites	Master Data as a Service (MDaaS)	Work Management as a Service (WMaaS)	Managed Services
	Maintenance Planning as a Service (MPaaS)	Maintenance Scheduling as a Service (MSaaS)	Advanced Analytics as a Service (AAaaS)
