

ONPLAN MODERNISING WORK MANAGEMENT

For asset-intensive industries, digitising work management can feel like navigating uncharted waters.

SMARTER WORK. SAFER WORK. MORE WORK

It's not just about enhancing maintenance tasks - it's about modernising your entire operation to be smarter, safer, and more productive. But overhauling long-established processes can feel as daunting as turning the Titanic.

That's where COSOL OnPlan steps in. With our reliable expert guidance and cutting-edge digital work management solutions, OnPlan seamlessly transforms your asset and maintenance processes, breaking down silos, unlocking untapped efficiencies, and empowering you to make more informed, data-driven decisions.

Let us help you become the benchmark for digital success.

IMPACT IN THE FIELD

▼ **60%** ▲ **2-5%** ▲ **25%**

Reduction in content
development time.

Increase in
equipment uptime

Increase in job
productivity

“ Access to skilled labour is a challenge in our industry, putting pressure to ensure technicians perform tasks correctly and record data accurately. With a digital system, we simplify instructions, give access to live maintenance procedures, thus making it easier for technicians to perform tasks with accuracy, while broadening our talent pool.

CITIC Pacific Mining

CORE BENEFITS OF ONPLAN

DIGITAL WORK MANAGEMENT

Efficiency Without Disruption

- **Seamless Integration:** Integrates with existing CMMS and ERP systems for a smooth digital transition.
- **Expert Guidance:** Navigate your digital transformation in phases with expert support.

Unlock Data Potential

- **Break Down Data Silos:** Connect your data and transform it into actionable insights for better decision-making.
- **Connect Strategy with Execution:** Improve the accuracy of work execution and ensure the feedback loop is complete, enabling continuous improvement.

Empower Your Workforce

- **Mobile-Ready Execution:** Access digital work instructions and supporting documentation on any device, boosting technician efficiency.
- **Bridge Skill Gaps:** OnPlan's intuitive platform empowers less experienced technicians to perform accurately and consistently.

Safety, Compliance, and Reliability

- **Enhanced Compliance:** Connect inspections and tasks to the latest compliance documentation for improved traceability and regulatory adherence.
- **Predictive Maintenance:** Track defect lifecycles, enabling proactive maintenance and extending asset lifespan.

CUSTOMER SUCCESS - CITIC PACIFIC MINING

Challenge

Paper-based inspections and disconnected processes.

Solution

OnPlan digitised work orders, inspections, and compliance documentation, integrating smoothly with SAP through a phased implementation, paving the way for a seamless work execution adoption.

Result

Improved efficiency and safety protocol adherence, enhanced communication, streamlined compliance, and a smoother transition to digital operations.

KEY TAKEAWAYS

FOR YOUR ORGANISATION

Smarter Work, Safer Work, More Work

COSOL OnPlan helps you unlock the full potential of your asset data - driving smarter decisions, improved safety, and greater operational efficiency.

Expert guidance every step of the way

COSOL OnPlan's phased, expert-led approach ensures a smooth transition to digital work management without overwhelming your organisation.

Scalable and flexible

COSOL OnPlan's modular structure expands and scales easily with your assets and workforce, adapting to your evolving needs and providing the foundation for long-term success in asset management.

Best practices for a successful digital work management transition

- ✓ **SMART WITH A CLEAR VISION**
Set specific objectives - like eliminating paper-based work execution processes, reducing tick-and-flicks, and improving first-time inspection accuracy.
- ✓ **ADOPT A 'PHASED' APPROACH**
Start with high-impact areas and expand gradually to minimise disruption and ease the transition to digital maintenance processes for your team.
- ✓ **LEVERAGE EXPERT GUIDANCE**
Collaborate with COSOL OnPlan experts to tailor the system to your specific asset management processes.
- ✓ **FOCUS ON DATA CONNECTIVITY**
Ensure seamless integration with existing systems (e.g., CMMS, ERP) For connectivity of datasets and continuous operational improvements.
- ✓ **ENGAGE ALL STAKEHOLDERS**
Involve leadership, technical teams, and frontline workers from the start to ensure broad support and a successful adoption of digital tools.

COSOL: When Reliability Matters

COSOL is built on one belief: in asset-intensive industries, reliability is everything. We're a trusted, data-led asset management partner - known for our deep expertise, dependable delivery, and ability to keep critical assets performing at their best.
