OUR CORE SOLUTIONS

COSOL is built on one belief: in asset-intensive industries, reliability is everything.

Our capabilities are structured around three journey-based solution areas - each designed to help asset-intensive organisations drive performance, reduce risk, and make better decisions. To explore the typical deliverables under each solution, including real-world examples of how we've delivered them - get in touch with our team.

1

Asset Management Services
Reliable results, not just recommendations.

We don't vanish when the real work begins. We stay accountable and embed proven asset management experts onsite, in the field, and at the source - combining frontline experience with deep digital know-how to turn plans into real-world outcomes.

Asset Management Advisory

Asset Investment Confidence	Business-Aligned Maintenance Strategy	Asset Management Maturity Uplift	Working Capital Improvement
Asset Management Process Optimisation			

Asset Management Optimisation

Operations Readiness	Embedded Operations Support	Capability Development	Asset Management Specialist Resourcing

2

Digital Asset Management
When your systems and data don't align with your business, risk multiplies.

COSOL fixes that. We assess, optimise, and manage your digital environment so you can make decisions with confidence. From system strategy and integration to data quality and migration, we turn fragmented tech and dirty data into reliable intelligence - reducing failure, improving uptime, and getting more value from what you already own.

Digital Asset Management

Enterprise System Strategy Alignment	Leveraging your ERP/EAM Investment	Data Lifecycle Integrity & Migration	EAM System Add-Ons
OnPlan Digital Asset Maintenance	EAM Intelligence	Enterprise Intelligence	

3

Asset Management as a Service (AMaaS)
When performance can't slip, you need reliable operators you can trust.

COSOL's AMaaS service model gives you a dedicated team to run, maintain, and optimise your asset systems and data every day. We handle the critical foundations - so your assets stay reliable, your teams stay focused, and nothing slips through the cracks. No gaps, no handover risk, no downtime.

Asset Management Services (AMaaS)

Maintenance Scheduling as a Service (MSaaS)	Maintenance Planning as a Service (MPaaS)	Work Management as a Service (WMaaS)	Master Data as a Service (MDaaS)

Asset Management Services (AMaaS)
