

SUSTAINABILITY SUITE

The ESG Platform for Climate Reporting & Predictive Analytics

Simplify Reporting Unlock Opportunity

Easily track and report on your sustainability performance against government mandates (based on AASB, TCFD & ISSB IFRS S2, or any other standard) and your own ESG goals, while also identifying the growth impact on your top and bottom-lines.

Ensure certainty in ESG compliance and drive top and bottom-line growth.

- ✓ Simplify your ESG reporting.
- ✓ Predict your future sustainability impact.
- ✓ Know how to drive top and bottom-line growth with sustainability.
- ✓ Communicate in real-time and with transparency.
- ✓ Meet government mandates with certainty.
- ✓ Extract insights from multiple siloed sources across your business.

We take the complexity out of ESG reporting

Sustainability Suite: All Modules

Carbon Accounting

Scope 1 & 2 Compliance

Product & Place Carbon Footprint

ASRS Compliance

Bespoke Protocol Mapping

Predictive Impact (e.g. Carbon Footprint)

Transition Planning & Scenario Modelling

Supply Chain

Scope 3 - Supply Chain Reporting

Supplier Portal Reporting, Survey & Assessment

Supplier Sustainability Risk

Supply Chain Management & Optimisation (incl Logistics and Transport)

Predictive Supply Chain & Scenario Modelling

Operations & Asset Management

Real-Time Energy Management

Waste & Resource Management

Interval Meter Analytics

Sustainable Asset Management

Production Efficiency

Predictive Maintenance & Ops

Geospatial Risk Analysis

Finance Impact

Sustainability Investment & ROI

Carbon Trading & Credits

Climate Risk & Adaptation

Predictive Finance & Scenario Modelling

ESG Impact

Predictive People Analytics

Modern Slavery Reporting Frameworks

ESG Investment & ROI

Compliance & Governance

Diversity & Inclusion

ESG Risks & Adaptation

Sentiment & Engagement

Sustainability Suite: Decision Support Packages

Sustainability Hub

for Finance, ESG and Sustainability teams, consultants and managers

Government Hub

for public servants

Supplier Hub

for external suppliers

The Executive

for Executive Management and Boards

Compliance Hub

for mandatory and voluntary reporting

Sustainability Hub: Modules

Decision Support Package

A Decision Support Package designed for Finance, ESG and Sustainability teams, consultants and managers.

The Executive

Decision Support Package

The Executive serves as a powerful decision support tool tailored for executives and board members, offering an executive overview of their organisation's ESG & Sustainability activities. This tool facilitates swift, informed decision-making and enables confident communication with stakeholders.

It provides a high-level dashboard of core suite categories and offers bespoke reporting and real-time analytics aligned with the specific ESG objectives and governance requirements of your organisation.
